FROST WARNINGS ARE ISSUED

NORTH FLORIDA.

OMAHA, March 17 — Several
trains in the northwest section of

NO APPROPRIATION FOR SITE FOR POSTOFFICE IN DAYTONA

AMENDMENT WAS CUT OUT OF
PUBLIC BUILDINGS BILL AS
PASSED BY CONGRESS AND
SIGNED BY PRESIDENT TAFT.

That the amendment calling for
an appropriation of \$6,000 for a site
for a federal building in Daytona was
cut out of the public buildings bill
when it was recently passed by con-
gress and signed by President Taft
as one of his last official acts, is the
information just given to the Daily
News by Senator Fletcher.

Deland gets an appropriation of
\$60,000 for a building and a number
of other Florida cities get appropri-
ations for public buildings and sites,
while Daytona gets nothing. Howev-
er, Senator Fletcher says the Flori-
da delegation will "look out for it in
the next bill."

STANDARD TIME FOR THIS CITY

WESTERN UNION TO INSTALL SYSTEM OF ELECTRIC CLOCKS

TIMEPIECES TO BE PLACED IN
BUSINESS PLACES AND RESI-
DENCES AND WOUND AND SET
EACH DAY.

Another improvement for which the
citizens of Daytona have been asking
for some time is about to be inaugu-
rated in this city in the installation
of a standard Western Union time
service, a series of electric clocks
to be wound and regulated by special
wires from the local Western Union
office.

A. E. Lang, district commercial man-
ager for the Western Union, has prac-
tically completed arrangements for
this service and it will be installed
if the business men and citizens de-
sire the improvement strong enough
to give it sufficient support. The
plan is to install handsome, orna-
mental clocks in all business places
and residences where the service is
desired, the expense to be a rental
charge of one dollar a month. The
clocks will be wound and set every
day at a certain time, each clock
being set to correspond with the
correct time sent out of Washington.

Mr. Lang will be in Daytona next
Wednesday to take orders for the
installation of clocks.

MRS. ISABEL GORDON CURTIS

Mrs. Curtis, the talented wife of Francis Curtis, director of the literary bureau of the Republican congressional committee, has just published another successful novel, "The Lapse of Enoch Wentworth."

Oriental Politeness.

In China when a subscriber rings up the exchange, the operator may be expected to ask: "What number does the honorable son of the moon and stars desire?" "Hohl, two-three." Silence. Then the exchange resumes: "Will the honorable person graciously forgive the inadequacy of the insignificant service, and permit this humble slave of the wire to inform him that the never-to-be-sufficiently-censured line is busy?"

Horses and Music.

The Swiss horse is apparently a very musical animal—or not, according to the hearer's ear. Strings of bells are hung round their necks, producing a musical jangle at every step. Some of the horses with the most bells, I noticed, were the thinnest—apparently they went without food to buy bells. A horse like that ought to be restrained.

CANCER RELATED TO CONSUMPTION.

Dr. Dixon, commissioner of health for the state of Pennsylvania, working under the Crocker bequest for the investigation of cancer at the Columbia university, announces the discovery that cancer is closely related to consumption. This was maintained by the writer in a book on cancer published about three years ago and in a pamphlet on "Consumption, and Its Relation to Cancer" two years ago. And in the hints it has been suggested that the treatment must be brought to a nutritional basis, as in consumption, whatever palliative treatment may be discovered for the treatment of the cancer tumor, the local manifestation of the disease, which, the writer maintains, is essentially constitutional. Neither consumption nor cancer can develop in a system that is maintained in normal condition by good nutrition, although there is an hereditary predisposition to both, and either may appear in childhood, as a consequence, although cancer is rare under thirty-five.

Mirage Easy to Be Seen.

The celebrated Fata Morgana, a presentation of natural "moving pictures" on an immense scale which is occasionally seen in the Straits of Messina, is explained by a scientific writer as being a mirage, such as frequently occurs in various parts of the world; "In fact," he says, "one may see a mirage any day by looking through the stratum of air overlying a hot stove, or adjacent to the side of a wall heated in the sunshine." Young scientists will be interested in verifying this statement.

Local Pride.

"Why do you insist on investing your money away from your home town?" "Well," replied Farmer Corn-tassel, "I've got a good deal of local pride, I have, and I regard the people in this here township as bel'n' so smart that none of 'em is goin' to let any real bargains git away from him."

Appeal for Native Talent.

A New York hotel man, who has just returned home after scouring Europe for cooks, complains that they are a scarce commodity abroad. The condition is one for which hotel men themselves are largely to blame. Why don't they encourage native talent in the cooking line instead of filling their kitchens with foreigners?—Rochester Democrat and Chronicle.

Do You Know?

A professor of anatomy at Yale College was asked by a boy the other day why boys were not born with 10 toes on each foot, and the wise man couldn't answer. Most men, after they get to be men, are satisfied with five toes on a foot, but a boy really ought to be allowed 10. With only five on a foot he now slips back while climbing a tree to steal apples. We move that the extra toes be provided before another summer.

Novel Method of Dusting.

In Europe they dust the paintings in art galleries by means of air syringes.

Model Husband.

Wife—I saw the loveliest hat spreads today, only two dollars and half, and I wanted them awfully, but I knew you wished to economize and I didn't get them.

Husband—That's too bad, my dear, you could have got them. Anything which adds to your happiness and brings gladness to your eyes, anything which lightens your domestic cares and glides the lowering clouds, anything which borders with sweet flowers the thorny paths of duty and appeals pleasantly to your esthetic nature, making life more worth living, home a paradise, you are welcome, doubly welcome, my angel, if it doesn't cost more than two dollars and a New York Weekly.

IT WAS ON THE WATCHMAN
 Thought Belated Husband Needed a Drink After Test Handed Out By Wife.

The new night watchman tiptoed cautiously over the grass, and diving forward, caught the little man by the coat tail and jerked him down to a seat on the lawn. "Come along, me foiner feller," he said. "It's up the river for you. No housebreakin' goes on my beat."

"Oh, let me alone!" exclaimed the little man peevishly. "I'm not house-breaking. This is my own house, and I'm trying to get in. Mind your own business."

"Likely story," grunted the watchman; "enterin' yer own house be the windy at one o'clock in th' mornin'. Tel that to the Judge."

"I tell you it is my house. My wife locked me out, and I was trying to get in this way when you interfered. The front door is bolted. There's the key, if you want to try. Or you go and ring the front door bell and see what happens."

The watchman, still keeping tight hold of his prey, walked slowly and quietly up to the front door, then suddenly gave the bell a vicious ring. A second floor window opened with a snap.

"William," said a voice so chilly that the watchman shivered down his backbone, "can you say 'six thousand six hundred and sixty-six separate satelites scintillating sparks slowly and with respect to sibilance?'"

The watchman, still grasping the shuddering William, made his way noiselessly to the gate, then whispered to the little man:

"Say, come down to the corner and get a drink to warm you up after that. I guess it's on me!"

Their Reasons.
 It was the dinner hour, and the prison inspectors were hurrying over their official round. They asked several questions quickly.

"I am here, gentlemen," explained the pickpocket, when the warder turned his back. "As the result of a moment of abstraction."

"And I," observed the incendiary, "because of an unfortunate habit of making light of things."

"The reason I am here," chimed in the forger, "is simply on account of a natural desire to make a name for myself."

"And I," added the burglar, "through nothing but taking advantage of an opening which was offered in a large mercantile establishment."

A Beggar's Luggage.
 When Bridget Flanagan, who described herself as "a poor lone Irish widow woman," was arrested for begging at Wells she had the following articles distributed about her person: Tea, sugar, fresh cut beefsteak, piece of bacon, two bloaters, bread and cheese, four buns, bag of biscuits, cooked fagot, two apples, onions, two clay pipes, tobacco, cigarettes and snuff.—London Evening Standard.

Origin of Common Names.
 Kings in the earliest days were merely "fathers of families," and the word is derived from the same source as "kin." Queen at first meant "wife" or "mother." An earl was an "elder" in the primitive society, while "caesar" and "kaiser" are both derived from "Caesar." A dandelion is or once was "dent de lion," meaning the lion's tooth, and vinegar was once "vin aigre," which means sour wine.

In the Cyclone Belt.
 "I tell you what," said Gotham, entertaining his western cousin, "everything's so high here it's almost impossible to keep a house going." "Well," replied the Kansan, "the winds are so high out our way it's almost impossible to keep a house from going."—Catholic Standard and Times.

Impossible to Tell All.
 "Will you solemnly swear that the testimony you shall give shall be the truth, the whole truth, and nothing but the truth?" "No; I won't swear to anything of the kind," answered the man who had been a witness in several big cases. "The lawyers won't let me tell half the truth."

London Puts Faith in Cats.
 London still depends upon its army of cats to handle the rats among the ships that come up the Thames. The port of London authority has made known its estimate for cats' milk for the year. The appropriation is for \$4,000.

Perfect Dish Washer.
 The invention of a Chicago hotel steward fills a long felt want. It is a machine that will wash and dry 18,000 dishes in an hour. Moreover, it needs the supervision and help of only two persons.

The Youth in Politics.
 Professor Blackie was in favor of a higher age limit for parliamentary candidates than is at present enforced. "I remain decidedly of opinion," he writes, "that no man ought to open his mouth on the hustings or at public dinners till he is at least 30 years of age. Young men are absolutely incapable of political wisdom; it is the fruit of time and cannot be extemporized from the young ebullience of the brain like a brilliant lyric poem or a dashing novel."

D. H. S. GIRLS' TEAM LOSES TO THE NEW STATE CHAMPS

INTERESTING BASKETBALL CON- TEST PULLED OFF AT THE NEW DAYTONA THEATER SAT- URDAY AFTERNOON.

The Orlando high school girls' basketball team, the new state champions, won from the D. H. S. girls' team Saturday afternoon, in a fast and hard fought game. The game was played in the New Daytona theater, and was one of the best exhibitions of the year. At the end of the first half, Orlando led, 16 to 5, and when the whistle blew at the close of the last period the score was 29 to 9, in favor of the Orlando girls.

The work of the D. H. S. guards was splendid, and it was largely owing to their good work that the Orlando score was kept down. The Orlando guards were also good on the defensive and gave the D. H. S. forwards few chances to shoot. Miss Bessie Quigg, right forward for Orlando, did some very clever goal shooting, while Miss Iva Livingston scored seven of the nine points gained by the locals.

Orlando lined up as follows: Bessie Quigg, Doria Mathews, forwards; Marion Smith, center; Elbeth Mulholland, running ceter; Katherine Padgett, Annie May Mathews, guards. Daytona: Iva Livingston, Kate Dittman, forwards; Lucy Stilling, center; Reva Livingston, running center; Irene Esch, Ethel Scholtz, guards.

Officials of the game were "Pete" McDermott, referee; Miss Lively, umpire; Winthrop Esch, scorekeeper.

**BUNGALOW PARK NORTH
RIDGEWOOD AVENUE**
Bungalow Park, which is being advertised in the Daily News by the agent, J. E. Wortman, in one of the most desirable subdivisions in Daytona. The land is nicely located on North Ridgewood avenue, just within the city limits. The ground is high and healthful and in places timbered with handsome giant liveoaks and other native trees, and on one of these new streets, Arlington avenue, a group of these big oaks form a very attractive feature.

The new streets, Arlington, Taylor and North avenues, running east from Ridgewood, are all 50 feet in

width. These streets have been marked and cement sidewalks put down, and the park will also be provided with city water and electric lights. The lots fronting on Ridgewood avenue are 60 and 62½ feet wide and 140 feet in depth, and those on the other avenues are 50 by 125 in depth. As it is intended to make Bungalow Park a strictly residence section, no lots will be sold for business purposes and building restrictions apply to all lots in the park, one requirement being that no house shall be erected costing under a certain amount, and another being that all buildings be 20 feet from the street line.

Two attractive bungalows are now in process of construction in the park and others are to be erected this summer on lots recently sold, and Bungalow Park promises to become one of the most popular residence sections of the city.

The park, which is located on the east side of Ridgewood avenue, north of and paralleling Fairview avenue, consists of about five acres of ground and includes 42 lots.

HONEY BOY MINSTRELS HAVE GOOD INTERLOCUTOR.

In addition to being one of the singing stars and comedians of George Evans' "Honey Boy" minstrels, who come to the New Daytona theater next Wednesday night, Vaughn Comfort will again occupy the interlocutor's chair, a place he has more than capably filled in the past.

The position in the center of the semi-circle of a minstrel first part is by no means an easy one to fill, and Comfort is said to be the best interlocutor in the world of black-face. The end man is dependent upon his co-worker in the center for the success of his jokes, the leader of the orchestra takes his cues from the middle man for the introduction of the music for the sweet and humorous singers, the light effects are guided by a sign from the man who presides in the center chair, in fact, every detail of the introductory portion of the minstrel entertainment must be at the command of the interlocutor. He reigns supreme in this part of the show. Vaughn Comfort is particularly fitted for this important post and has filled it with unusual success for many years with the largest minstrel organizations in the world.

LOCAL BOYS BEFORE MAYOR GIVEN FIVE DAYS IN JAIL

**ALLEGED TO HAVE CUT OFF
HAIR OF SMALLER BOYS NEAR
SCHOOL — JAIL SENTENCE IS
REMITTED.**

On a charge of disorderly conduct, B. Burdick and C. Myers, two local boys were before the mayor Monday morning and sentenced to five days in jail. The jail sentence was remitted by the mayor pending good behavior. The charge is said to have been made by an act of the two boys in catching and holding some smaller boys near the public school and cutting off their hair.

"TOURIST JIM" VISITS DAYTONA ON WAY SOUTH

"Tourist Jim, the Merry Rambler," and as he styles himself, "America's Most Celebrated Tramp," arrived in Daytona Saturday and will spend a few days here before continuing his journey to Key West, to "beat" his way from the Island City to Cuba and South America.

Contrary to the usual ideas of a tramp, Tourist Jim is a neat looking and well-dressed young man 23 years of age, and he does not beg, making his way by doing sleight of hand tricks and tattoo work. He claims to have left his California home when 13 years of age and since that time he says he has seen a big part of the world, travelling over 250,000 miles. The body of Tourist Jim is a veritable picture gallery, as he bears tattoo picture marks on every available inch of skin from his neck to the soles of his feet.

Girl Burglar's Foot Betrayed Her.

A young girl burglar who robbed a Paris tobacco shop was escaping by the roof when she put her foot through the kitchen skylight. The cook saw her foot appear through the glass and sent for the police, who reached the girl by means of a ladder and took her to the police station.—London Mail.

Whence the Term "Gazette."
The name "gazette" as applied to a newspaper is derived from a small Venetian coin, the price of the first news sheet published there.

INTERESTING DRIVES POINTS WORTH VISITING

OCEAN BEACH—excellent bathing north for 10 miles and south 15 miles to Mosquito inlet and the Government Lighthouse at Ponce Park. The beach is the most magnificent in the world.

BEED, KNOX & BEED ORANGE GROVE—18 miles, via Ormond, is one of the largest groves in Volusia county and is well worth seeing; can be reached by motor over fairly good road; can also be reached by boat.

NUMBER NINE ORANGE GROVE—a large grove, passed on the way to the Beed, Knox & Beed grove, is 12 miles from Daytona.

NEW SMYRNA—16 miles from Daytona, over an excellent hard surface road; this drive is said to be the prettiest in the state. At New Smyrna are the ruins of an ancient fort and other historical spots, left by the colony of Andrew Turnbull.

OLD SPANISH MISSION—2 miles west of New Smyrna, reached by motor over good road. This mission is without authentic history but by many it is contended that this is the church built by Columbus on his second voyage to America. The altar is still extant, but at a later date the building was used as a sugar mill.

SPANISH SUGAR MILL—2 miles west of Port Orange and about 8 miles from Daytona; the machinery is still in a good state of preservation, although the mill is presumed to have been built and operated by the early Spanish settlers.

DELAND—25 miles from Daytona; the county seat of Volusia county and seat of John B. Stetson university; a very picturesque city; reached by motor over hard surfaced road.

GOVERNMENT LIGHTHOUSE—a Ponce Park, 12 miles from Daytona is reached by boat or by motor on the ocean beach.

DAYTONA SPRINGS, 20 miles north of Daytona; numerous springs; a fine swimming pool; a delisious swimming pool, and pleasant scenery. Spring is situated in the plantation. Reached by motor over good road; a nice trip for a picnic party.

OAK HILL—hamlet, 10 miles north of New Smyrna; several orange groves in the locality; reached by motor over hard-surfaced road.

ORMOND—six miles from Daytona; here is located the Ormond hotel, a pretty town; nearby are the ruins of Spanish sugar mills.

TURTLE MOUND—25 miles south of Daytona; reached by boat; a mammoth mound of oyster shells supposed to have been left by a prehistoric race of people. Ruins and other antiquities have been discovered in excavating the shell.

PORT ORANGE—an attractive town 9 miles south of Daytona, can be reached by motor over hard-surfaced road; or the trip one way may be made by the road and crossing the Halifax river on the Port Orange bridge, the return can be made on the ocean beach.

CLARENDON GOLF LINKS—2 miles from Daytona and immediately north of the Hotel Clarendon at Seabreeze; the links are now in good condition. The Hotel Clarendon bears the distinction of being the only fireproof winter tourist hotel in the world.

GENERALLY, you may motor in any direction from Daytona and find places and objects of interest which your driver can explain to you; there are many by-roads through the sylvan vegetation that a visitor will greatly enjoy.

PRESENT SEASON GREATEST IN HISTORY OF THE STATE

ONE-FOURTH MORE VISITORS TO
 FLORIDA THAN IN ANY PRE-
 VIOUS YEAR AND MANY NEW
 HOMES ESTABLISHED.

JACKSONVILLE, March 17. — The
 tide of tourist travel has turned north
 again, after the heaviest year in
 the history of Florida as a resort
 state.

Estimates and figures furnished by
 the railroads and hotels of the state
 show that the increase over last year
 is between 25 and 30 per cent, and
 a continuous stream is still pour-
 ing into the state, and will continue
 to come until the formal closing of
 the hotels. Even then, for a month,
 there will be an appreciable passage
 of people to the state.

Tampa reports that never in its
 history has there been such a number
 of visitors and winter guests. St.
 Petersburg long ago had out the "S.
 R. O." sign, and still they came. The
 central part of the state has been fill-
 ed and every little hamlet in Flori-
 da has made the acquaintance of
 numbers of visitors from the north
 and west.

But it is on the East Coast that
 the tourists really come. Miami,
 Palm Beach and Daytona, St. Augus-
 tine and Jacksonville, have all en-
 joyed such a season as they did not
 expect. Every hotel has been full
 from early in the season, and though
 every train out of Florida is now
 carrying the visitors home for Easter,
 there is hardly enough gone to miss
 them in any of the hotels down the
 coast. Last year the season began
 to close at Easter, and from that
 time on for two weeks after there
 was general exodus from the state.
 This year, with Easter coming the
 earliest it has for many years, it is
 doubted if there will be formal clos-
 ing of the season until later; but by
 the 10th of April the greater part of
 the northern guests will be home.

Many of the visitors to the state
 come early and have almost to be
 shoved out to close the doors of the
 hotels. Every year there is more and
 more demand for a later season, in
 the state, and many of the smaller
 hotels are hearing the call, and will
 remain open through April.

The estimate of those who came to
 the state the past season cannot be
 given, as few details are given out
 by the hotels, for evident purposes,
 but all are willing to agree that
 something more than a fourth over
 what ever came to the state before
 have been here, and are here now.

In addition to the purely visitors,
 there is an unprecedented number of
 those who have bought lands, and
 will remain in the state the year
 round.

The summer climate has at last
 been realized to be more salubrious,

and far less intense in heat than
 that of any northern city, and the
 prevalence of gulf and ocean breezes
 every night in the summer season
 has caused many to choose this
 state for their year-round home.

Taken as a whole, Florida has
 gained many thousands in permanent
 population this winter, and it has in-
 creased many per cent. in its arable
 lands. The state is fast becoming
 populous, and the time is near, from
 all reports, when Florida will be one
 of the great states of the Union in
 population as well as in climatic and
 health inducements.

CITY CAFE EMPLOYEE DRANK KNOCKOUT DROPS.

Peter Zabanoni, a helper in the
 City Cafe, was out of the hospital
 Saturday, but not fully recovered
 from the effects of the knockout
 drops introduced into his system ear-
 lier in the week, when a negro
 loiterer about the place offered him
 a drink of gin from an unsuspicious
 looking bottle. Zabanoni, who is fa-
 miliarly known as "Six by Nine,"
 says that the stuff tasted like gin
 and at the invitation of the negro
 he finished up the contents of the
 bottle and shortly thereafter fell un-
 conscious to the floor. Dr. Klock
 was summoned and later Zabanoni
 was removed to the hospital and
 spent two or three days there re-
 covering his senses. The negro,
 who has since left town, had been
 paying attentions to a young negro
 girl employed in the cafe and
 Zabanoni thinks the dose had been
 prepared for her, but she would not
 touch it and rather than waste it
 the negro tried it out on Zabanoni,
 only making a pretense of drinking
 from the bottle himself.

When the Worm Turned.
 "No power on earth shall make me
 do it!" he declared, firmly. She ap-
 proached close to his side. Her eyes
 glared into his and her lips sneered.
 "You shall do it! However you
 read it, it must be done! You hear
 me?"

"I refuse utterly! Such a thing is
 unworthy for a man of pride and hon-
 or to undertake!" he repeated, draw-
 ing back from her as from a whip-
 lash.

Quickly she was at his side again,
 gripping his arm with fingers slim, but
 hard as steel.

She slipped a small knife into his
 hand—a thin, sharp-pointed piece of
 steel. "There!" she said. His obsti-
 nacy was momentarily driving her to
 desperation.

Her voice broke with passion, and
 she cried, in a loud, angry tone: "Wil-
 liam Tomkins, if you don't do what I
 say and go peel those potatoes at
 once, you'll go to bed without any
 dinner!"—Puck.

Fairly Good Excuse.
 A candidate for state office asked a
 Leavenworth man over the phone the
 other day to look up some election re-
 turns. "I'll do it in a few minutes,"
 said the Leavenworth man. "I am very
 busy just at this moment. My \$40,-
 000 business block is burning down."

GOOD PROSPECTS FOR HOME RULE DECLARE THE LEADERS

BACKERS OF MOVEMENT IN EN-
 LAND SEND ST. PATRICK'S DAY
 GREETINGS TO IRISH IN AMER-
 ICA.

LONDON, March 17.—Home rule
 leaders for Ireland, among them John
 Redmond, Thomas Scanton, Hanar
 Greenwood and others, today sent to
 Irishmen in America, St. Patrick's
 day greetings, with assurances that
 the prospects are brighter than ever
 before for home rule.

ANNOUNCEMENT IS MADE OF APPROACHING MARRIAGE.

Announcement is made of the ap-
 proaching marriage of Miss Ruby
 Inez Sullivan and Charles A. Bos-
 ley, which will be contracted in this
 city early in April. Following the
 wedding the couple will leave for
 Aberdeen, S. D., where they will
 make their home, stopping enroute at
 various places of interest.

Miss Sullivan is a daughter of
 Mrs. Sadie Sullivan of 37 Second
 avenue and is well known to the
 young people of Daytona and vi-
 cinity, while Mr. Bosley is a promi-
 nent young business man of Aber-
 deen, who first visited this place
 last winter and has been here again
 the present season with his parents,
 Mr. and Mrs. Ulrich Bosley, at their
 winter home in Holly Hill.

Matter of Doubling.
 Oliver Wendell Holmes was a class-
 mate of Doctor Clarke at Harvard, and
 according to the reminiscences of the
 latter, the Autocrat of the Breakfast
 Table was as witty then as later.
 One day the two were talking of
 metaphysics, when the bright-tongued
 little great man exclaimed, "I'll tell
 you, James, what I think metaphysics
 is like. It is like a man splitting a
 log. When it is done he has two
 more to split!"

Making Bomb-Thrower Out of Host.
 An English wit of reputation, who
 has been visiting New York for the
 last two weeks, remarked at the con-
 clusion of a little dinner given him:
 "It's been excellent. I never heard
 older stories nor drank newer wine
 in my life."

Knew His Man.
 Gibbs—"That's a pretty rocky-look-
 ing umbrella you have there, old
 man. I wouldn't carry one like that."
 Dibbs—"I know you wouldn't; that's
 the reason I carry it when you're
 about."

An Expert.
 "Does your wife do much fancy
 work?" "Yes, when I'm late in get-
 ting home evenings she fancies all
 sorts of things."

Beauty Unadorned.
 "A pretty girl can wear almost any-
 thing."
 "Yes; or quite the contrary."—

DIET AND HEALTH HINTS

By DR. T. J. ALLEN

LEARNING TO MASTICATE PROPERLY.

Prof. Irving Fisher of Yale
 University finds that "a distinct
 benefit results from thorough
 mastication of food, when it is
 done naturally and not labori-
 ously, with the attention on the
 taste and the enjoyment of the
 food, and not on the mere me-
 chanical act itself." To learn to
 eat slowly we must give it some
 attention. It may even be nec-
 essary to fix upon a definite
 number of chews for each
 mouthful till the habit of thor-
 ough mastication becomes well
 established, when the chewing
 may be left to take care of it-
 self, like every other good habit.
 It is said that Gladstone once
 adopted a rule to chew thirty
 times, from whose good results
 Mr. Fletcher got the suggestion
 for his campaign of education.
 Many good habits are estab-
 lished by first giving painful at-
 tention to a process, which in
 time becomes habitual, and Flet-
 cherizing is no exception.

Up Against It.
 Hokus—Why don't you try to get a
 job?

Pokus—Employers prefer to hire
 married men.

Hokus—Then why don't you get
 married?

Pokus—A girl won't marry a fel-
 low unless he has a job.

Primitive Reasoning.
 "Did you sell your vote?"
 "No, siree. I voted for that fellow
 'cause I liked him."
 "But I understand he gave you \$10."
 "Well, when a man gives you \$10
 'tain't no more'n natural to like him,
 is it?"

And Then Silence.
 Mr. Grump (with newspaper)—
 "Here's an odd case—a woman mar-
 ries one man, thinking he is another."
 Mrs. Grump—"What's odd about that?
 Women are doing that all the time."

Pleased Everybody.
 "Bottle made an awful big hit at
 the banquet the other night." "Is that
 so?" "Yes, he was called on for a
 speech and refused."—New York
 World.

 ture.—Henry D. Thoreau.

Small Town Life.
There is nothing so satisfying as to go to a small town and see the people who are so much more than the people of the city. In a small town, the people are more interested in the people than in the things. In a small town, the people are more interested in the people than in the things. In a small town, the people are more interested in the people than in the things.

Children's Church.
In some churches, the children are the most interesting part of the service. In some churches, the children are the most interesting part of the service. Cat-Pawed Fawn.
A fawn can be made out of a cat-paw. A fawn can be made out of a cat-paw. A fawn can be made out of a cat-paw. A fawn can be made out of a cat-paw.

Madly Admiring.
A New York woman of great beauty called one day upon a friend, who was a very famous person. She was very famous. She was very famous. She was very famous.

Superior Judgment.
"Do you suspect that men are quicker of judgment in practical matters than women?" "Yes," replied Miss Chapman. "Men have headed the war."

GENIUS AND VANITY.
Schopenhauer was not a bit afraid of himself. He was not a bit afraid of himself. He was not a bit afraid of himself. He was not a bit afraid of himself.

GRIT OF A SHARPSHOOTER.
Sergeant Halliwell's feat at the siege of Lucknow. During the siege of Lucknow in the Indian mutiny there was afforded what was probably the most notable instance of the record in war of a crack shot.

Seven in the Bible.
The number seven plays a prominent part in events in the Bible. The creation took six days, and on the seventh there was rest. On the seventh day of the seventh month a holy observance was ordained, and the Israelites feasted seven days and rested seven days. Noah had seven days' warning of the flood, and the seven years of plenty were foretold in Pharaoh's dream by seven fat beasts, and were the seven lean years by seven lean beasts. We speak of the seven heavens, and the seventh son was supposed to be endowed with pre-eminent wisdom. In short, there is no other number which enters into the Bible so often as seven. No doubt the wide popularity of the number and the superstitions which are connected with it came from its wide use in the Bible.

Tacking Explained.
"What do people mean when they talk about tacking?" asked Bobby, who had listened to a detailed account of his sister's first experience in a sailboat, but in considerable confusion of mind. "Oh, you'll know when you're a little bit older," said his sister, but the small round face wore an expression of inquiry, and she had to explain further. "Why, it's just turning halfway round," she said, with slight hesitation, "and then—and then you sail on the bias."

The Gurgling in the Bottle.
Why does water gurgle when poured from a bottle? As water pours out air attempts to pour in. Occasionally the hand holding the bottle may move and give the air the opportunity. The quick rush of the water to fill the hole made by the air causes the gurgling sound.

Grading the Rulers.
Themistocles, it is said, declared that his son was the strongest man in Greece. "For," said he, "the Athenians rule the Hellenes, I rule the Athenians, your mother rules me, and you rule your mother."

A Really Smart Man.
"He always says the right thing at the right time, doesn't he?" "More than that," he always keeps still at the right time."—Houston Post.

Very Much Easier.
"Any man can make a fool of himself." "True, but with a woman's help it's much easier."—Boston Transcript.

CROWD.
Sir James, who was accompanied by Alfred Tennyson to the first of Dickens at Westminster, has described the scene when the crowd identified the distinguished visitor. "There was an immense congregation that day in the abbey and when the service was over we stood up waiting a long time to pass out through the rails. But instead of dispersing by the outer door the people all turned eastward and flocked toward the altar, pressing closer and closer up to the sacristy. The chances of getting out became less and less, and I turned to Tennyson and said: 'I don't know what all this means, but we seem so hemmed in that it is useless to move yet.'"

Burglars Aid Collections.
"Being a moral member of the community, naturally I deplore burglaries," said the church treasurer. "If I studied the welfare of the church alone I should encourage them, for next to the burglars themselves, the people who profit most from an epidemic of small robberies are the churches."

Twin Gods of War and Melody.
How do statesmen get themselves into the frame of mind to declare war? According to a popular German story the method in Bismarck's case in 1866 was one that would hardly be suspected. His subordinate Kendorff was an expert pianist, and Sir Mount Stuart Grant Duff put it, "used, it is said, to fulfill toward him the function which David fulfilled toward Saul." On one evening Bismarck was unusually moody and Kendorff surprised himself at the piano. "Thank you, my dear Kendorff," said Bismarck finally, "you have soothed me and done me so much good; my mind is made up; we shall declare war against Austria."

His Sign Said So.
One evening at 7 o'clock a man with a wife and 11 children, many of them grown up, appeared at the entrance to an entertainment hall, bought two tickets and demanded that the entire family should be admitted. The doorkeeper declined to admit the family with two tickets only. "But all these are my children," said the man. "Of course," said the doorkeeper; "but some of them are too old to be admitted free."

Could Folly Go Further?
A very small dog created a great stir in the streets of Paris a few days ago. A bijou pet dog was seen in the Champs Elysees with a lady. It was wearing indiarubber boots laced high up the leg, ear protectors, goggles to shield his eyes from cold or mud, and a raglan overcoat lined with thick flannel and provided with a pocket from which projected a tiny handkerchief with a monogram.

Turn to Wooden Flooring.
The use of wooden flooring is on the increase in Italy, taking the place of the former extensive demand for marble, tiling and cement. Oak, larch and pitch pine are mostly adopted, and but little, if any maple, birch or beech has been brought to the market.

Making Glass Tough.
Tumblers, wine glasses, lamp chimneys and other glasses may be rendered so durable as to be almost unbreakable by placing them in a saucepan of cold water and gradually bringing it to boiling heat. Care should be taken that they do not touch each other during the bubbling-up of the liquid.

High Finance.
A New York thief chloroforms his victims before he robs them of their money. Probably he is a humanitarian. It is such a painful operation to get money from some people that an anesthetic is absolutely necessary. —Cincinnati Commercial Tribune.

Striving to Be Correct.
"Why did you emit that feeble yawn when our candidate's name was mentioned?" asked the master of ceremonies. "Why," replied the conscientious man, "I am one of those delegates with half a vote. I thought maybe I was entitled to only half a cheer."

CHANGE IN COLOR OF EYES

By No Means Uncommon, and Easily Accounted For, According to Surgeon.

The possibility of a man's eyes changing as the result of mental shock or physical ill treatment was the subject of an interesting discussion by a number of surgeons in the eye ward of one of the great London hospitals.

One of the surgeons stated: "It is common knowledge that great physical hardships may suddenly turn the hair white. The loss of color here follows on certain chemical changes, due to disturbances of nutrition, taking place in the tiny particles of coloring matter which give the hair its color."

"All infants at birth have blue eyes. In some babies, immediately after birth, pigment granules begin to develop in the iris. Thus they become brown or black eyed. In others, however, no such pigment formation takes place, and the eyes remain blue or gray throughout life."

"If this at present blue-eyed ex-convic is really the missing brown-eyed banker, a reasonable explanation of the discrepancy in the eye colorings would be that under the strains of physical and mental shock the coloring matter which had in early life developed in each iris had dissolved or disappeared, leaving the eyes the original blue coloring present at birth."

MADE ALL THE DIFFERENCE

Mr. Newlywed Equal to Fine Distinction Between His "Cherub" and Neighbor's "Brat."

"Our likes and dislikes are guided by the personal equation—whatever that is," commented the bachelor. "Indeed?" queried the suffragette.

"Yes; the property we buy at a real estate forced sale is always the highest and driest, while the other fellow's property, we are willing to swear, is under water."

"Are you getting ready to argue?" "No, I'm still unmarried. But I wanted to show how different we all feel about ourselves and our property from other people and their property. You know, I have a room in a flat with a young married couple. I have one there so that I can observe the marital—or is it marital?—existence. A couple of months ago the stork brought them a baby."

"A boy or a girl?" asked the suffragette revealing a spark of womanhood; then she added, quickly, "but never mind; it will be a voter, anyway, some day."

"On the floor below us is another baby," went on the bachelor. "The other day the quiet of the house was disturbed by lusty yelling."

"Is that our little cherub crying?" asked the mother.

"No," the father answered; "it's the brat downstairs."

Pastor's Merited Rebuke.
When Samuel S. Colver was preaching in an old log schoolhouse in Johnson county, Missouri, in 1852, his congregation was quite small. One Sunday all were sitting at the desks forward near the pulpit. The sermon was monotonous and the old log seats had no backs. Observing the sleepy, downcast look of the congregation, the minister woke them up by shouting: "Arouse, heaven is not under the floor!"

Overcured.
Doctor—"You admit that I cured you of insomnia, then why don't you pay my bill?" Patient—"Sorry, doc, but I sleep so soundly now that my wife goes through my pockets nights and takes every cent."—Boston Transcript.

ABIDING PLACE OF MICROBES

Eliminate the Vacant Seat and the Church Will Bloom into Splendid Health.

There are microbes that are menacing the church with dire defeats; they're bacilli that produce the plague entitled Vacant Seats. There's an influence arising from these weary, dreary pews, that's as pestilential as the breath of rank, malarial dews. If diagnosis we would make of churches void of heat, we'd find the mercury had dropped down in the vacant seat. The doctors ought to busy get, the church's health to save, because this situation is becoming very grave.

Napoleon wished once, 'tis said, to break a conquered bell; his soldiers swung their hammers free, and pounded hard and well; but firm, uninjured, strong, it stood, resisting every stroke, until they hit from the inside, and then, it quickly broke. Thus what the church needs most to fear, is not the outside sin, but spineless, lackadaisical inanity within. And that which blocks and trips the church, and rolls her down the stairs, is the nominal adherent who, however, isn't there. If we could but eliminate this stunting empty seat, the church would soar in glorious flight, amazingly complete. There is a remedy that works at any time and place; it's every one, at every time, and always, in his place. If you would give this formula a keen, conclusive search, just try it well, next Sunday, at the Presbyterian church, or any place of worship where you feel you'd like to be, and the medicine and healing you'll find tally to a T.—The Continent.

EVIDENTLY A HARD TASK

Somewhat Humorously Worded Epistle the Result of Struggle With English Language.

As the most delightful example she has ever seen of the English the European uses in his correspondence, a woman who has just returned from "the other side" is showing her friends a letter that she declares to be her most interesting "souvenir."

"After we left Amsterdam," she explains, "my daughter discovered that she had left her cuff-links in our room at the pension. So I wrote back to the proprietress, whom I knew spoke English, asking her to look for them. Here is the reply."

Then she shows it. And this, word for word, is how it reads:

"Dear Mrs. Thomas-Grant: "Immediately upon receiving your letter I am going at once to looking in every drawer, and found this two button in the table near her bed. Can it be this two things what your daughter lost?"

"In that way I am very glad to find it."

"So not, be so good to send it me back, for it might be of another person who perhaps will write me he lost something."

The Range of Vision.

Data have been gathered in Germany with reference to the distance at which persons may be recognized by their faces and figures, says the Scientific American. If one has good eyes, the Germans claim, one cannot recognize a person whom he has seen but once before at a greater distance than 25 meters (82 feet). If the person is well known to one, one may recognize him at from 50 to 100 meters, and if it is a member of one's family, even at 150 meters. The whites of the eyes may be seen at from 27 to 38 meters, and the eyes themselves at 72 to 73 meters. The different parts of the body and the slightest movements are distinguishable at 91 meters. The limbs show at 182 meters. At 540 meters a moving man appears only as an indistinct form, and at 720 meters, 2,361.6 feet, the movements of the body are no longer visible.

Salmon Eat Herring.

Thousands of salmon have been caught in streams and examined and their stomachs and insides were empty. But it is not uncommon to catch them in the sea and find in them half a dozen herring. After the salmon has been in a river for a time the lining of the stomach becomes all drawn up and wrinkled. Just why the salmon avoids feeding in fresh water no one knows.

World's Debt to Writers.

It was a French news writer that wrote: "Suffer yourselves to be hanged if need be, but publish your opinions;" but in this country writers in early times faced imprisonment and the pillory again and again in order to make their views public, and whatever these may have been, it must be conceded that they deserve credit for courage, at least, in having laid the foundation of that freedom which the press of this country enjoys.—London Globe.

Wanted to Pile It On.

Mr. Coopah—"Could yo lemme look in yo' dictionary a minute, kuhnel! Jest want t' find a couple of words to add to mah lodge-office title what Ah was elected to last night. They dun chose me Grand High Most Worthy Exalted Imperial Plenipotentiary, but it strikes me dat sounds jes' a little bit cheap."—Puck.

Its Real Value.

"This poem was written by a prominent lawyer of this city. Has it any value?" "About as much value," said the editor, "as a legal opinion written by a poet."—Washington Herald.

NOBLEST SCIENCE

BEST INSTRUCTION

Pastor Russell in a College City Advocates Bible as Text Book.

The Value of Learning—Its Cost—Various Kinds of Knowledge—The Most Important One the Best Teacher—The Most Successful Pupils.

Ithaca, N. Y., March 16.—Pastor Russell is here; and in view of this being the seat of Cornell University he took as a text the words of the philosopher: "Wisdom from Above the noblest science, the best instruction." It must be said, however, that the Pastor used various Scriptures, any one of which might have served for a text.

Once the colleges represented, not merely secular education, but the religious sentiment of their founders, usually religious men. Today, however, colleges are ashamed to acknowledge any religious affiliations; and although they represent high moral principles, nevertheless, they are hot-beds of infidelity—disbelief in the Bible as the Divinely Inspired Revelation. This condition is deplorable.

In the Pastor's opinion the great institutions of learning, so well equipped for the inculcation of faith in God, are doing more to overthrow faith than are all other influences combined. The increase of knowledge he believed to be accountable for the increase of vice. He explained that the undermining of faith in the Bible as the Word of God and the inculcation of the Evolution theory tend to destroy all faith in a personal God and in rewards and punishments from Him. One of the most peculiar things was that very wealthy men have richly endowed leading colleges, thereby destroying faith and an intentionally leading mankind to social revolution, to the precipice of anarchy.

Sympathy For Higher Critics.

Nothing in the Pastor's words indicated condemnation; on the contrary, he manifested a deep sympathy for those entangled in the snares of Occultism and Evolution. He had been entangled once himself, he said, but had gotten free. Had he gone so far as to doubt the existence of God, he believed that he would have been as lost in Evolution as are many of the noble men occupying college chairs. The Pastor believes the difficulty is that many cannot accept the Bible as the inspired Record. So also he had once rejected it; for he had thought it to be in harmony with the absurd creeds of the Dark Ages. Now he is a most firm believer in the inspiration of the Bible. One of the surprising things his Bible study has revealed is that the Bible supports none of the creeds; and that none of the creeds or sects use all of the Bible. Each sect has selected doctrines from the Word of God, and uses these in its own defense. But each finds there teachings which do not fit in with its creed.

Evidently none of the sects manufactured the Bible. Had the Calvinists done so, they would have omitted texts teaching Free Grace. Arminians would have omitted Election. Catholics would have added something to teach the immaculate conception, indulgences, high and low mass, holy water, holy candles, apostolic succession, etc. All would have put in texts telling about the Trinity.

All would have omitted texts teaching that the dead are asleep, to awaken in the resurrection morning. Indeed, it is most difficult for them to explain how there can be a resurrection. If those who seem to die are really more alive than ever. Evidently the Bible was not made by man.

My prayer and effort is that thinking Christians may see that this wonderful Book, while out of harmony with the creeds, is fully in harmony with itself. The great Plan of salvation which the Bible sets forth towers far above all the efforts of puny men, represented in the creeds of Christendom. The Bible Message could not have come from elsewhere than Above.

Learning's True Value and Cost.

Learning along all lines of present day instruction is surely valuable. The applied sciences are doing much for the world. But while very important and helpful to human progress, these alone are not sufficient. The human mind must have a theory respecting its future destiny and the object of its present existence. The searcher for knowledge along these lines is usually referred to Plato and Socrates. None seem to think of progress in mental philosophy beyond these giants of the past. Yet, if the Evolution theory be true, these men were much nearer the monkey state than we are today.

The Pastor sought to impress the propriety of beginning Bible study afresh, ignoring the creeds of the Dark Ages, and permitting the old Book to explain itself. He pointed out, however, that the Bible specifically declares that without the Holy Spirit it cannot be fully and clearly understood. Those who consecrate their lives to God and thus enter the School of Christ will be taught of Him.

He believes that unless the highest organs of the human brain—those pertaining to religion and morality—be cultivated, the student is poorly prepared to withstand the storms of life.

Delicious punch was served in the library and the refreshments served in the dining room were more than usually elaborate.

LARGE SUM REALIZED BY TAG DAY FOR ISLAND PARK.

Tag Day, Saturday, was instituted for the benefit of Island Park by the City Island Park and Library association and proved very successful, \$540 being realized for the improvement fund.

The tickets or tags were printed in different colors and persons who purchased from several young ladies displayed all the colors of the rainbow in their decorations which were attached to their persons for the remainder of the day.

The tags were to be seen attached to automobiles and other vehicles and even horses, dogs and cats were ticketed with the bright colored pieces of cardboard which meant improvement of the city island.
